BSB51415 Diploma in Project Management

This qualification reflects the role of individuals who apply project management skills and knowledge. They may manage projects in a variety of contexts, across a number of industry sectors. They have project leadership and management roles and are responsible for achieving project objectives. They possess a sound theoretical knowledge base and use a range of specialised, technical and managerial competencies to initiate, plan, execute and evaluate their own work and/or the work of others.

The Diploma of Project Management has been created to acknowledge the growing importance of project management skills, and the ways in which they can empower employees within a dynamic business environment. This course is ideal for those of you who manage, or are about to manage projects within the workplace.

Project management professionals work in a diverse range of industries including hospitality, business, construction, IT, government, engineering, finance and many more.

Potential careers include:

- Project Manager
- Project Leader
- Project Team Leader
- Project Contract Manager
- Project Vendor Manager.

Who Is This Course For

Are you looking to lead projects in the future? Do you need a qualification to support your professional experience? The Diploma of Project Management will give you practical training based on the latest industry thinking as well as a nationally recognised qualification. Learn how to initiate, plan, execute and evaluate projects in a variety of contexts across a number of industry sectors. Everything from managing project scope and timelines, costs and human resources to project risk, project integration, communication and information.
